

IMMATURE SPACKED

#001 [Portal] Bodysuit Front View

#001 [Portal] Bodysuit Back View

The **Immature Species** brings the graphite-based universe of Orion into the three-dimensional realm, embodying in this **SIGNATURE SERIES** the creative chaos of the restless minds that have crafted this project.

Our first item to debut is the **#001 [PORTAL] BODYSUIT**, an original Orion design that was conceived through several experiments, resulting in this emblematic handmade piece that represents generations of raw **artistic expression, rebellion and resistance**.

All of our pieces are made to measure with wild dedication to detail in the vast industrial city of Monterrey, NL, Mexico.

The Immature Species conducts a local production process, therefore orders are artisanally slow paced, taking approximately **21 to 31 days of elaboration** from the moment of commission, after proper fitting or sending in your measures. Estimated shipping rates and dates are subject to destination and season.

At the moment, sales are handled through direct contact via our official Instagram page and website contact page to ensure an easy and reliable experience for our customers.

Every stitch bears witness to the vision of a world that embraces the far-out and those of erratic nature.

SO MUCH POWER FOR AN IMMATURE SPECIES.
